

## NWCA/Trackwrestling Stats Program

On behalf of the National Wrestling Coaches Association (NWCA) Board of Directors and our president, Coach Tom Ryan/Ohio State, I want to make you aware of the fantastic functionality and features of the “state of the art” NWCA/TrackWrestling Stat program.

Simply stated, we have created a very simple way to collect individual wrestler and team stats that can be used by the coach to evaluate performance strengths and weaknesses. Further, there is a huge benefit to our sport as we create a central repository for this data. For the first time, we can objectively measure the effectiveness of rules and policies because we can compare the stats before and after implementation of various rules. Click [HERE](#) to purchase your stats package today!

With this in mind, here are some great features of the NWCA/Trackwrestling stat package:

- You can provide “live scorebook” feeds for dual meets out to the internet for FREE.
- Enter results “live” with any device that can connect to the internet and anyone around the world who has access to the internet can watch your dual meets for FREE (tablets, smart phones, PC, MAC, etc.).
- Only one team in a dual meet has to enter results (it automatically

captures results for the opposing team).

- Tie breaking criteria for duals is automated in the software.
- Live dashboard for fans to visually follow the matches.
- Built in scoring logic to prevent data entry errors.
- Fully integrated with NWCA Weight Management software (OPC)
- Disseminate your results to unlimited media with one click.
- Access to customized individual wrestler and team reports.

With all of this in mind, please click [HERE](#) to order your stat package today for only \$50:

Please know that the revenue we generate from our NWCA/Trackwrestling partnership is critical to funding our efforts to start new programs and/or save threatened programs. Thank you for your consideration of this request and best wishes for a successful wrestling season.

Sincerely,  
Mike Moyer
