

Can You Picture Yourself or Your Team Standing On Top Of The Podium!

Countless Campers & Countless Champions

This image above is of Dalton Young, Lakeside High Schools Four Time State Champion! Our sport demands a winner and a loser and how you choose to train in the summer will certainly dictate that! Dalton was a believer in the Washington Intensive Camps and even better he was a believer in what they taught you off the mat as well! The champion in this case was always more defined by character, discipline, consistency off the mat and in the classroom, at home, and in Youngs life! Dalton is amongst hundreds of wrestlers who have used the Intensive Wrestling camps as a spring board for success! I would need a professional analyst to go back and track the hundreds of State Champions who have started with Intensive Camp, took what they learned and applied it in their rooms and lives, and then in later years went on to do it at the national level competing in Fargo etc... I'm asked constantly why my camps are during the Fargo Training camps and the answer is actually simple, my camps can serve Fargo level wrestlers extremely well, but my passion is in helping set a

foundation for success of the kids and individuals who perhaps are not at that level quite yet but desire to be one day! Camp truly is for all level of wrestlers when you have a big goal in mind! Kaizen

ID Intensive Camp June 10th - 16th

Location: Garden Valley ID

WA Intensive Camp July 16th - 22nd

Graham, WA

Coaches who believe in applying a system Win Often!

Coaches Leave Camp With A System

Above is a picture of Scott Jones and as many of you know, my father who ran the WA Intensive camp for years. Him and I have been cumulatively running these camps for nearly 27 years. My father was a coach who believed in a systematic approach to training our high school kids and he was an even bigger believer in sharing that system with other coaches. In recent years him and I have gotten together to cumulate our years of experience in the sport to deliver a camp that would give coaches a system to take home. First you will see it at camp, but the best part is you will go home with a system and philosophy that will be applicable in your room. No more going to a camp and having it all go in one ear and out the other. I have spent the last couple years cumulating and perfecting a video series that is simple, precise, and above all the most desirable drills I could give a coach who wants improvement instantly with a systematic approach that is applicable to all levels of wrestling.
